

2008-09 China Directory of US Building Materials Suppliers & Service Providers

US housing and building materials manufacturers and exporters and their Chinese representatives are invited to promote their companies in the 2008 Chinese Language Directory of US Building Materials Suppliers & Service Companies, a publication listing suppliers of wood and non-wood construction materials and related professional services. Now in its fourth printing, the Directory is an effective means of promoting your company to builders, architects, building materials importers and related construction industry professionals throughout China.

Cost/Directory Listing:

EBPA Members: \$200

Non-Members: \$225

Registration Deadline: May 31, 2008

Company Information Deadline: June 5, 2008

All company listings will be included in the following two formats:

Printed book: 7,500 copies of the printed Chinese-language directory will be mailed to Chinese importers, wholesaler/dealers, architects, and developers free-of-charge. The directory will also be distributed trade fairs, during twice annual EBPA/USCB sales mission and seminar series, and other industry trade shows and events.

Internet directory: Company directory listings will be included in English and Chinese on the US-China Build web page (www.uschinabuild.org). Company information can be updated regularly by EBPA staff upon request to reflect staff changes and new product offerings and services. US-China Build and Washington State offices use the directory extensively as a reference and resource for Chinese companies interested in using imported building materials. Each online listing will include a link to your company's webpage.

Format: Full-page Chinese-language directory listings include vital information that Chinese companies want and need to know—contact information for you and your Chinese agent(s), a business profile, product and service descriptions and other company specifics. The user-friendly format is cross-referenced by company name in English and Chinese and by product or service.

Main Products & Services	
1. Windows 2. Patio Doors	
Description	
<p>The privately-owned business was founded in 1903 by Danish immigrant Hans Andersen and his family in Hudson, Wisconsin, where logs arrived via the St. Croix River. Andersen Corporation, headquartered in Bayport, Minnesota, is now an international enterprise employing more than 9,000 people in locations across North America. With nine manufacturing facilities, Andersen annually manufactures more than six million wood windows, patio doors and storm doors, with sales worldwide. Andersen products, available in more than 600,000 unique shapes and styles, are premier in the industry. Andersen offers two distinct window and patio door portfolios - the Andersen® 400 Series and 200 Series. The 400 Series is the company's classic product line, offering a broad array of the highest-performing products and accessories.</p> <p>The 200 Series concentrates on the most popular sizes, styles and options in a more affordable offering. Both lines are built, backed and serviced with the quality and care customers expect from Andersen. Both lines offer the durability, performance and beauty of the Perma-Shield® system. Andersen Corporation recently purchased two window and door companies names KML and Eagle that produce high quality custom aluminum clad window and door products. These products can be produced in custom color, size and wood species allowing Andersen Corporation to meet any project specification requirements. The international division of Andersen has the ability to provide project specification support including technical assistance and pricing for all Andersen Corporation's products.</p>
